PRESIDENTS MESSAGE:

Our June meeting and our dinner dance both large and very successful events. Thank you Wendy Banting of Secural for a very informative talk on the technological advances in scale reduction, and thank you to all our dinner dance committee in particular Janice Wynn of Stadia Industries for all you wonderful help.

Welcome back everyone, It's been a very good summer for those of us who like the outdoors and for those of us who choose to stay indoors, make sure those cooling systems are running well. Mother nature may take care of the outside, but for most of you, we control the indoor environment.

It gives me great pleasure to work with the a new board of directors who have worked so hard over the past few weeks assisting with start up for this years events. I look forward to the up coming golf tournament which has had a hugh response. All sponsors and participants were completely booked by August and some still on the waiting list. I hope you all have received your new reference and buyers guide it's outstanding. This year I would like to encourage everyone to come to as many monthly meetings as possible and please feel free to invite guests, particularly people who would be considered for membership, we are trying to increase our circulation and expand our association to it's full professional potential.

Yours truly,

Dave Lazaros
